New Patient Menu Starting Aug. 8, 2007

As a part of our continuing mission to drive patient satisfaction and promote excellence in patient care, the Nutrition Services Department will roll out our new patient menu this Wednesday. This "new & improved" menu will showcase several new entrees, such as the Southwest Chicken Wrap and Taco Bake, while retaining many of our more popular items from the previous menu. Additionally, Catering Associates will begin taking breakfast menus in an "a la carte" fashion; this process will allow patients to choose individual items to create a morning meal more typical of what they would eat at home. We are very excited about these changes and want to extend our gratitude to you for your support and feedback during this time.
